

Flu & Covid Booster Clinic at The Regency

Flu and COVID-19 are two different viruses and require two different vaccines. The Centers for Disease Control and Prevention (CDC) recommends both vaccines and says it's safe to receive them at the same time.

There is a **new COVID-19 booster** just in time for fall. Timing your next booster shots right could help maximize your protection.

The CDC said in an announcement that you are eligible if you have received at least a primary series of the vaccine, don't actively have Covid-19 and have waited at least two months since your booster shot.

The Regency Memory Care Club® has partnered with Parlin Pharmacy for a Flu & New Covid Booster Clinic

WHEN: Monday, September 26, 2022
10:30am – 2:30pm

WHERE: Regency Memory Care Club
